

Evolver Guide Contents

	About The Author	viii
	Preface	ix
1	Introduction - What Is Lean Manufacturing?	1
	What is Lean Manufacturing?	2
	What is Evolver™?	3
	Course Objectives	4
	Defining Value	5
	Fundamental Lean Objectives	6
2	Waste Identification - The Seven Forms Of Waste	7
	Waste Identification	8
	Over-Production Waste	9
	Fixing Defects Waste	12
	Unnecessary Motion Waste	14
	Inventory Waste	16
	Over-Processing Waste	18
	Transportation Waste	21
	Waiting Waste	22
3	Lean Tools And Concepts	25
	Important Terms	26
	Level Loading	27
	Achieving Level Loading	29
	Before Level Loading (Example)	31
	After Level Loading (Example)	32
	The “Outside Process Effect” - Another Evolver™ Exclusive	33
	Using The “Outside Process Effect”	35
	Level Loading Final Thoughts	37
	One-Piece Flow	38
	When To Apply One-Piece-Flow	39
	Batch Or Batch Processing	41

Best-Batch-Flow - Another Evolver™ Exclusive	42
Deciding On The Optimum Batch Size	43
Batch Size Reduction Mistakes	44
Push System	46
Push System Example	47
Pull System	49
Pull System Example	50
Establishing Lead Times	51
Establishing Acceptable Lean Times In A Best-Batch-Flow Application	52
The Daisy Chain Approach To Batch Processing	
Another Evolver™ Exclusive	57
Daisy Chain Example	59
Example - Results	65
Example - Advantages	65
Implementing The Daisy Chain Approach	66
Daisy Chain Approach Advantages	67
Daisy Chain Approach Limitations	67
Cross-Training Employees	68

4 Conducting Time Studies 71

Conducting Time Studies	72
Tools Required	73
Time Types	74
Getting Started	76
Observations And Taking Notes	78
After The Time Study Is Complete	80
Time Study Example	81
The Measuring Wheel Results	82
Tips For Collecting Time	83

5 Shop Floor Layouts - The Correct Way 85

Layout Section Objectives	86
Functional Layout	87
Functional Layout Example	89
Product Layout	90
Product Layout Example	91
What Is A Cell?	92
The Cellular Objective	92
Dedicated Work Cells	93
Family Work Cells - Another Evolver™ Exclusive	94

Expansive Cellular Layout (ECL) - Another Evolver™ Exclusive	96
Getting Started	99
Combining Cellular Approaches	100
The Traditional “U” Shaped Cell	101
Present Layout vs. New Layout	102
Beginning Your Present Layout	103
Equipment Labeling	105
Spaghetti Diagrams	106
Spaghetti Diagram Example (Before)	107
Spaghetti Diagram Example (After)	108
Walking The Existing Process	109
Designing A New Layout Outline	110
Working With Monuments	111
People Considerations	112
Equipment Considerations	113
Beginning Your New Layout	116
Marking The Floor	117
Marking The Floor (Example)	118
Walking The New Process	119
Final Thoughts: Planning And Equipment Moving	120

6

Quality Tools And Concepts

123

What Causes Defects?	124
Covert Operations	126
Not On-Going	127
On-Going	128
Final Inspection Yield (FIY)	130
Final Inspection Yield Example #1	132
Final Inspection Yield Example #2	133
Perfect Pass Percentage (PPP)	134
Perfect Pass Percentage Example	135
Preventing Defects	136
Error Proofing	139
Error-Proofing Examples At Home	140
Error-Proofing At Work	140
Standard Work Instructions	141
Standard Work Instruction (Example)	144
80/20 Rule	145
80/20 Pareto Chart Example	146
The 5 Whys?	147
Using The 5 Whys In Business	148
Asking Why In The Workplace	149

7 Self-Directed Work Teams- The Holy Grail Of Lean Manufacturing **151**

Self-Directed Work Teams	152
Why Invest In Your Employees?	154
Who Knows More About A Process?	155
Moving The Decision Making Process?	157
Interpersonal Skills	158
Coordination And Cooperation Between Interdependent Teams	159
Establishing Self-Directed Work Teams - Tips For Managers	161
Establishing Self-Directed Work Teams - Getting Started	163

8 Facilitating And Managing Change During A Lean Transition **165**

What Types Of Changes Can You Expect During A Lean Transition?	166
Common Reactions To Change	168
Vocalizing Anger Or Concern	169
The Silent Treatment	171
Attempting Sabotage	172
Interested, Excited And/Or Cooperative	173
Why Do Employees Resist Change?	174
What Causes Resistance To Change?	175
Minimizing Resistance To Change	177
When Changes Are Proposed In Your Area	178
Tips For Facilitators And Managers	179

9 The 5S System **181**

Introduction To The 5S System	182
The 5S's Are:	185
Getting Started - Tips For The Lean Facilitator	186
Sorting	188
Simplifying	190
Standardizing	191
Standardizing Example	193
Sweeping (Routine Cleaning)	194
Sustaining The Changes	195
Making 5S Events More Successful	196
The Point-Of-Use Concept	197
Shadow Boards	198
Shadow Board Example #1	199
Shadow Board Example #2	201
Shadow Board Example #3	202

Visual Controls	204
Visual Control Example #1	205
Visual Control Example #2	207
Visual Control Example #3	209
5S Results - Hardware Project	210
5S Results - Wood Finishing Project	212
5S Results - Metal Fabrication Project	216

10 Tips For Getting Started 219

Evolver™ Lean Event Classifications	220
Level 1 Event	221
Level 2 Event	222
Level 3 Multipart Event	222
What Not To Do	223
The Blanket Approach To Lean Deployment	224
The Spoon-Fed Approach	226
Take Small Steps	228
Trying New Ideas	229
Tools In Your Toolbox	230
Cookie Cutter Approach	231
The Success Of The First Project -	
Eliminating The Self-Fulfilling Prophecy	232
Project Selection Situations	233
Scope Creep	234
Don't Make It Personal!	234
A Final Note...	235

Glossary And Definition Of Acronyms 236
